ALICE[®]
CERAMICA

AZIENDA COMPANY

Alice Ceramica si trova nel comprensorio di Civita Castellana. Pur essendo un'azienda giovane si è cercato di far fronte alle sfide del mercato con prodotti che richiedono continue innovazioni di processo e competenze. Il contributo di idee e creatività da parte dei nostri collaboratori ha fatto sì che si realizzassero prodotti di indiscussa qualità, originalità e tecnologicamente avanzati.

Non è una sorpresa che il patrimonio culturale della regione e la lunga tradizione nella lavorazione della ceramica abbiano fortemente influenzato l'abilità di Alice di eccedere le aspettative in termini di design e affidabilità. Qualità, innovazione e un po' d'orgoglio rendono le nostre creazioni uniche.

Vieni a scoprire la nuova Alice.

Alice Ceramica is located in the hinterland of Civita Castellana, in the center of Italy. While being a young company, we tried to face the challenges of the sanitary-ware industry, which requires continuous innovations in processes and knowledge-development. The contribution of ideas and creativity from our partners led us to the creation of products of undisputed quality, originality and technologically advanced.

It is no surprise that the heritage of the region and the long-standing traditions in ceramic-working heavily shaped Alice's ability to exceed any expectations in terms of design and reliability. Quality, innovation and a hint of pride makes our creations unique.

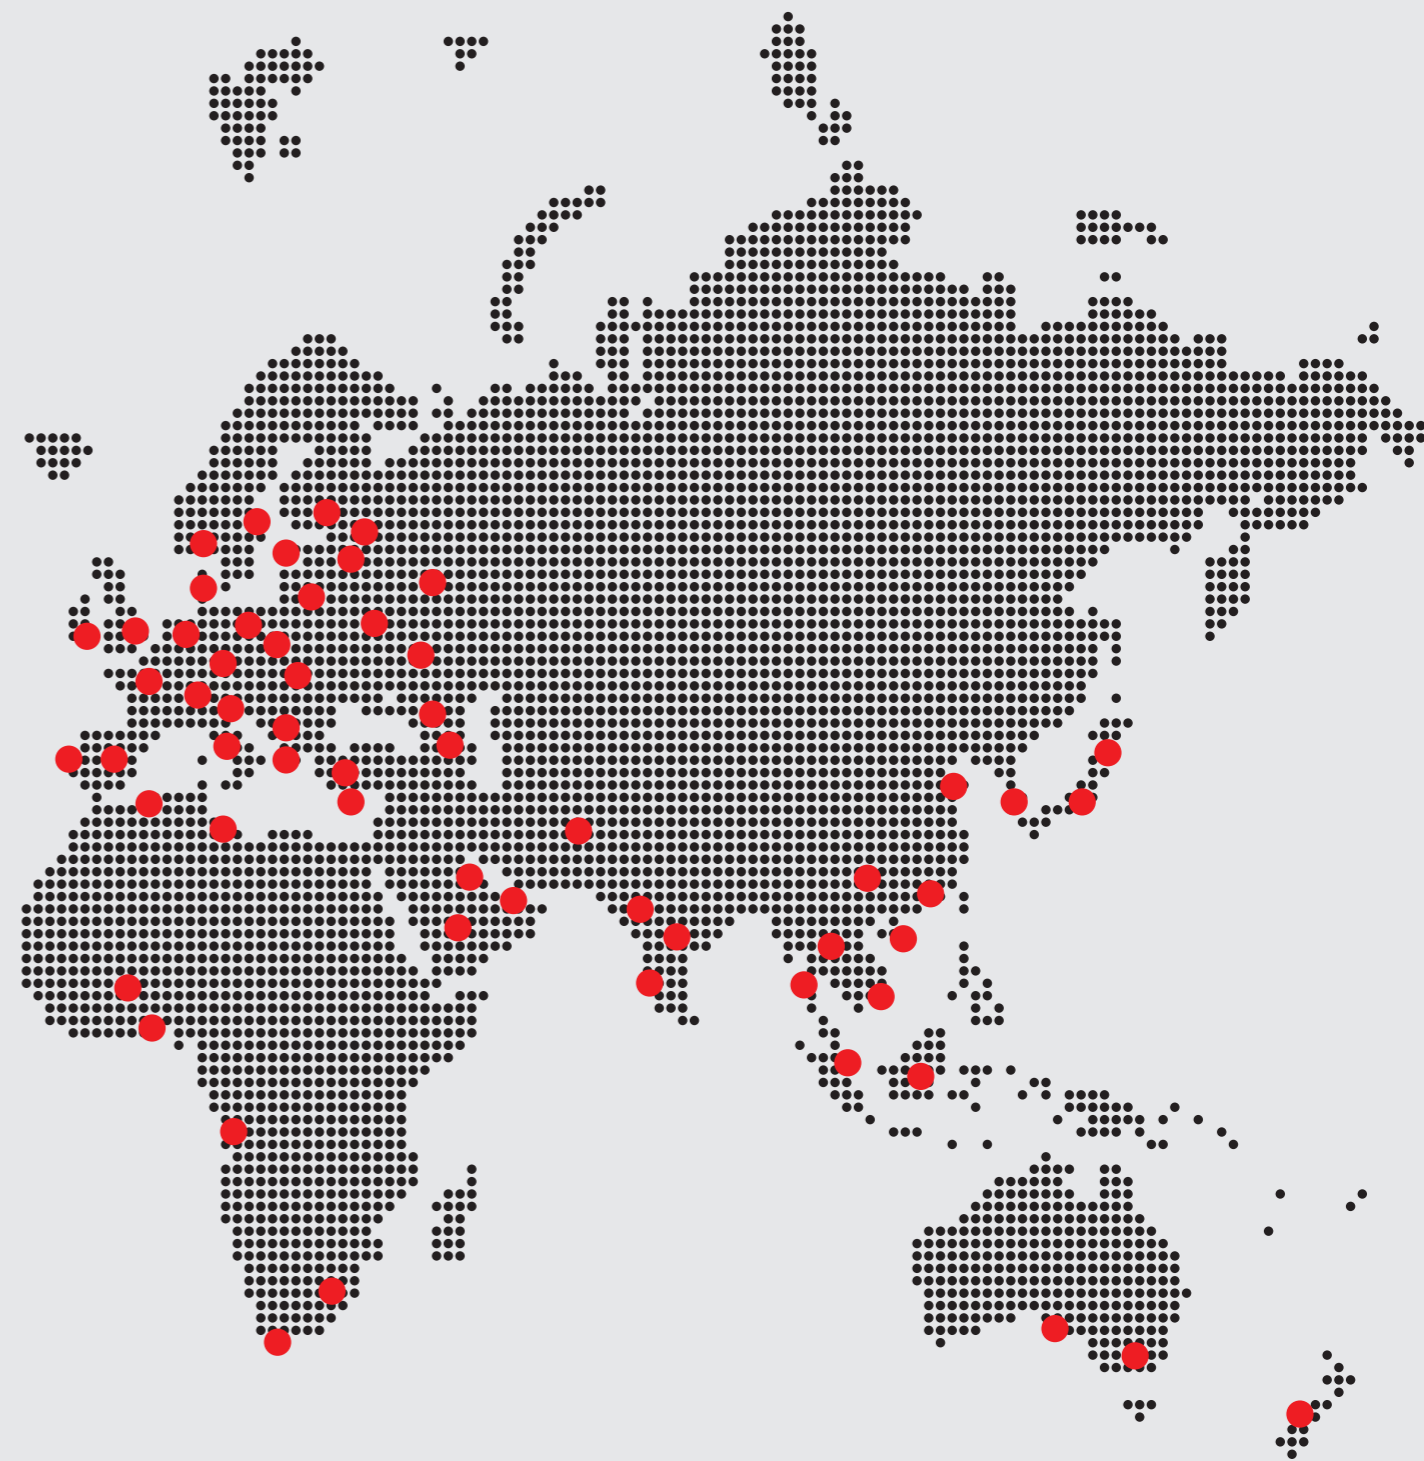

Come meet the new Alice.

STABILIMENTO FACTORY

Il nostro stabilimento situato nel cuore di Civita Castellana produce circa 800 pezzi al giorno, e i nostri specialisti includono designers, tecnici e operai tra i più esperti di uno dei cluster industriali più importanti del mondo per la ceramica sanitaria.

Our state of the art facilities located in the heart of Civita Castellana deliver daily about 800 pieces, and we employ designers, manufacturers and industry experts in one of the most prolific industrial cluster for sanitary-ware in the world.

PRESENZA INTERNAZIONALE INTERNATIONAL PRESENCE

Alice Ceramica è ormai presente alle più importanti fiere del settore del design, della ceramica e dell'arredobagno. Un'azienda globale presente in oltre 40 nazioni, Alice segue da vicino i propri partner e propone supporto diretto a chiunque voglia introdurre le nostre collezioni nel proprio mercato.

Alice Ceramica has attended for years the most important fairs in the design, ceramics and bathroom furnishing sectors. A global company present in over 40 countries, Alice closely follows its partners and offers direct support to anyone who wants to introduce our collections to their market.

PROGETTO ASEM

ASEM PROJECT

CRESCERE L'EUROPA NEL LAZIO

Alice Ceramica partecipa al progetto ASEM "Advanced System for Environment Management".
Cod.CUP F65F18000030007 Inizio: 01/03/2018 Fine: 01/09/2019.

Lo scopo del progetto è quello di integrare le risorse termiche derivanti dai forni presenti in azienda con il processo direzionandole ove servono, per utilizzarle nella loro totalità.

Si prevede di gestire così: il riscaldamento ambientale normale, l'essiccazione degli stampi, l'essiccazione dei pezzi, il riscaldamento dei servizi e la termostatazione degli impasti a partire dal recupero del calore presente nell'aria di raffreddamento del forno tunnel. Tale recupero verrà integrato da generatori esterni che verranno in supporto nei momenti di massima richiesta.

Gestendo opportunamente i tempi e le necessità si conta di utilizzare il recupero presente sulle 24 ore in percentuali prossime al 100% in Inverno ed al 75% in Estate.

Nel contempo si utilizza il sistema di controllo della circolazione dell'impasto per riscaldarlo come desiderato, tramite tubi in acciaio inox utilizzati come scambiatore diffuso.

Alice Ceramica has attended for years the most important fairs in the design, ceramics and bathroom furnishing sectors. A global company present in over 40 countries, Alice closely follows its partners and offers direct support to anyone who wants to introduce our collections to their market.

Alice Ceramica takes part to the ASEM Project - Advanced System for Environment Management.
Cod.CUP F65F18000030007 Inizio: 01/03/2018 Fine: 01/09/2019.

The purpose of the project is to re-route the thermal resources derived from the furnaces used at the factory to support the production process, directing them where they are needed and using them full.

The heat is planned to be used as follows: normal environmental heating, drying of the molds, drying of the pieces, heating of services and thermostating of the dough starting from the recovery of the heat present in the cooling air of the tunnel oven. This recovery will be integrated by external generators that will come in support at times of maximum demand.

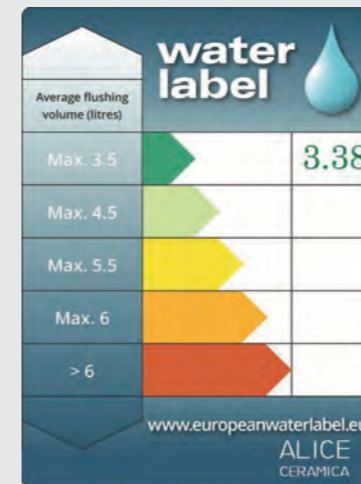

By appropriately managing the deployment and needs, we plan on using about 100% in Winter and 75% in Summer of the previous 24 hours recovered heat.

At the same time, the dough circulation control system is used to heat the dough as needed, using stainless steel pipes used as a diffused exchanger.

EUROPEAN WATER LABEL

L'European Water Label, associazione che promuove l'educazione sul consumo dell'acqua e indica i prodotti che rispettino queste caratteristiche, ha rilasciato all' Alice Ceramica il riconoscimento per i wc Nur, Hide, Form e Unica Rimless dove lo scarico a 3,38 litri permette un notevole risparmio idrico.

The European Water Label, an association that promotes awareness on water consumption and recognizes products that adhere to these guidelines, has awarded Alice Ceramica its approval label for the Nur, Hide, Form and Unica rimless WC; in these WC the size of the flush is 3,38 liters, allowing for considerable water savings.

INNOVAZIONI INNOVATIONS

Alice Ceramica si impegna a progettare, produrre e introdurre sul mercato nuovi prodotti e soluzioni innovative. Il ciclo di innovazione è una missione che portiamo avanti con lo scopo di stare al passo dei tempi introducendo collezioni, moderne e funzionali con cadenza regolare.

Alice Ceramica is committed to designing, producing and introducing on the market new products and innovative solutions. The innovation cycle is a mission that we carry on with the goal of keeping up with the times introducing modern and efficient collections at regular intervals.

SOTTOSQUADRO®

La collezione NUR è l'apice dell'ingegneria e del design sanitario made in Italy. Il direttore artistico e designer Massimiliano Braconi ha realizzato una curva impossibile, mai vista prima nei lavabi in porcellana. La collezione segna una nuova era per Alice come pioniere del design innovativo combinato all'arte e ai progressi ingegneristici, consacrando l'azienda tra i leader del settore come attore chiave nel business dei sanitari.

I bordi dei lavabi NUR richiedono una rivisitazione del classico processo di colaggio per accogliere la curva "sottosquadro". I nostri artigiani devono intervenire e rimuovere gradualmente i tasselli in gesso a mano per consentire un processo di essiccazione in più fasi. L'inclinazione negativa del bordo è unica nel suo genere, e rappresenta la rinnovata attitudine aggressiva e ambiziosa di Alice Ceramica.

NUR collection is the pinnacle of Italian sanitary-ware engineering and design. Art director and designer Massimiliano Braconi crafted an impossible bend, never seen before in porcelain-made washbasins. The collection marks a new beginning of Alice as a pioneer of innovative design mixed with art and engineering advancements, bringing the company among the industry leaders as a key player in the sanitary-ware business.

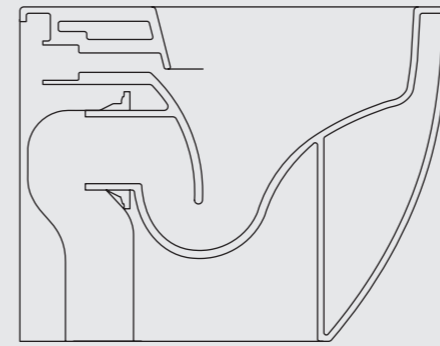

The edges of the NUR washbasins require the classical "poured-in mold" process to be revisited to accommodate the "sottosquadro" bend of the curve. Our artisans have to intervene and gradually remove the chalk molds by hand to allow a multi-stage drying process. The negative curve of the edge represents the new aggressive and ambitious attitude of Alice Ceramica.

BICOLORE BI-COLOR

La modernità e il look della finitura matte uniti alla sensazione di pulizia profonda delle superfici lucide. Alice Ceramica offre la possibilità di personalizzare lavabi e sanitari secondo tutte le necessità, in combinazioni di bianco, nero e grigio.

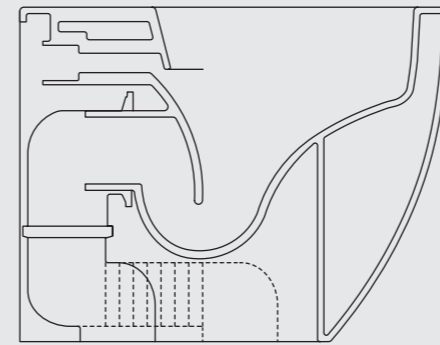

The modernity and looks of the matte finish alongside the deep clean feeling of shiny surfaces. Alice Ceramica offers the choice of customizing its washbasins and sanitary-ware according to your needs in combinations of white, black and grey.

SENZA BRIDA RIMLESS

Una soluzione imprescindibile in un bagno moderno e al passo coi tempi. Tutti i sanitari di Alice Ceramica sono senza brida, e garantiscono una soluzione igienica e al passo coi tempi.

An indispensable solution for the modern bathroom. All Alice Ceramica's sanitary-ware is rimless, and guarantees the highest standard of hygiene.

TRASLATO SENZA BRIDA TRASLATO RIMLESS

Comodità e praticità, il "traslato" di Alice Ceramica si adatta a tutti gli scarichi e a tutte le abitazioni. Una soluzione dinamica per portare le collezioni Alice Ceramica in ogni casa, indipendentemente dai limiti tecnici e strutturali.

Comfort and practicality, the "traslato" is suitable for all pre-existing plumbing and houses. A dynamic solution to bring Alice Ceramica's collections in every house regardless of its structural constraints.

SPY

Una linea di lavabi particolarmente adatta a spazi limitati e a sale da bagno che nonostante le dimensioni non vogliono sacrificare il design. Tutta la praticità e lo stile di Alice Ceramica, per tutte le necessità.

A collection particularly suitable for limited spaces and bathrooms that despite the tight dimensions don't want to sacrifice design. All the practicality and the style of Alice Ceramica, for all necessities.
